

# BIG Comments 2016

Thank you for visiting this space to add your comments, suggestions, concerns, successes, etc. in response to the Boating Infrastructure Grant Program (BIG) Final rule published in May 2015.

The Service has awarded one fiscal year of grants under the new rule and welcomes feedback from States, marinas, businesses, and other interested parties on how the new BIG rule has helped the process, or presented challenges. Please be as specific as possible in your comments. Your comments may be used to facilitate conversations at the States Organization for Boating Access (SOBA - [www.sobaus.org](http://www.sobaus.org)) annual conference in October.

It will be helpful if you include at the end of any comments your name, position, agency, and email address.

Thank you!
